

Data Dictionary: DS Fundamentals Exam

Column Name	Data Type	Description
Region	object	Region that the country is located
Country	object	Country
Year	int	Year
Age	object	Age range: <15: Anyone younger than 15, 15-24: Young Adult, 24-64: Adults over 24 to 64, 65+: Adults 65 and older
Gender	object	Gender
Literacy Rate	float	Percentage of individuals who have the ability to both read and write*

**Literacy rate is calculated by taking the number of literate persons in that age and gender group divided by the total number of persons in that group. Literate is defined as the ability to both read and write, with understanding, a short, simple statement about everyday life. Literacy rates at or near 100% indicate that (nearly) every individual in that age range and gender group is able to read and write, at least at a basic level.*
